About This Game

Stealthscape is a top-down momentum based speed game that has you pitted against a wide variety of enemies and obstacles while you try to quickly make your way to the portal at the end of each level. Mastering the controls is a strenuous task and requires you to take advantage of bouncing off walls in quick and perfect succession, turning at just the right time, all while being able to shoot your targets on the exact angle required.

Each stage in the campaign is created by a variety of people, some like to hold your hand, introduce you to new mechanics, and puzzle you, while others can be brutal, unforgiving, and push all your prior knowledge to the extreme.

Stealthscape brings more to the table than just a campaign however, here's a full list of what you can expect from the game:

-200+ stages
-Leaderboards for all campaign stages
-Replays/Ghost Racing for all campaign stages
-Level Editor with Steam Workshop support
-Statistics for every little thing you do
-A wide selection of colour palettes to start with and even more to unlock
